

Simple Patrol Guard Tour Solution

Are you looking for an affordable yet tough and reliable Guard Tour product then we have the solution for you.

As the name suggest the **Simple Patrol management software** is easy to install and simple to use and yet will provide you with detailed reporting at all levels.

- Reports can be customized to include your company name and logo
- Customer site details are recorded in the database
- Events and incidents can be recorded against a checkpoint location
- Security guards can have a Logon tag and reports will display the Guards name for the duration of their shift
- The administrator can setup user profiles that allow operator Logins with specific access rights (full access – reports only or downloading of wands)
- Full Reporting giving you and your clients confidence that tours are being completed or highlight areas of concern
- Reports can be printed or saved in a variety of formats PDF, CSV and JPEG
- Plus much more
