## Anti-Vandal Mounts Available in High Impact PVC and High Security Metal for Correctional Facilities.

### New PVC Mounting Instructions

Our new PVC Mounts available in RED, GREEN & BLACK(images attached). These are a PERMENANT MOUNT-once it's mounted & the iButton is inserted, there is no way to remove the mount or button except by destroying either! For mounting the Colored mount, all that would be required is one 1/2 to 3/4 inch fastener with countersunk head. Affix the mount onto a flat surface & insert the iButton using finger pressure. An audible click will be heard when the iButton is seated correctly.

MAXIMUS  
TECHNOLOGIES

The logo consists of a stylized 'M' made of three vertical bars in blue, green, and red. To the right of the bars, the word "MAXIMUS" is written in a bold, sans-serif font. Below "MAXIMUS", the words "TECHNOLOGIES" are written in a smaller, all-caps sans-serif font.

## Anti-Vandal Mounts High Security Metal for Correctional Facilities.

### High Security Metal Mount-Instructions

A 1/2 to 3/4 inch fastener with countersunk head is required to securely affix the High Security Metal mount to a smooth, flat surface . To seat the iButton into the metal mount you will need to follow the procedure below:-

1. Secure Metal Mount to a Flat Surface using a  $\frac{1}{2}$  to  $\frac{3}{4}$  inch Countersunk Screw.
2. Secure iButton to Metal Ring “Flange” side down.
3. Use finger pressure to insert iButton into Metal Mount.
4. Assemble tool as shown in Diagram.
5. Using a Mallet, hammer iButton into Mount.

Above is a Graphical Diagram for Mounting Metal Mount
