Inspection Compliance

User-defined Inspection eForm

33 eForm elements for user to design own eForm and push directly to all your mobile users.

The 'Basic elements' menu lists various form components: Single selection(Remarks), Multi Selection(Remarks), Drop Down Box(Search), Column text, Picture, Audio, Address, Signature, Table, Date, Date and Time, Title, picture, Illustration, Importance, Customer/Site, Page, Radio group, Drop Down Box(Remarks), Multilevel selection, Value, Take Picture, Video, Remarks, Multi row multi column, Time, Text Description, Blank, Urgency, Device code, and Form code.

The 'Fire extinguisher checklist' form includes a photo of a fire extinguisher, a 'Location' dropdown set to 'FL 1', and a question 'What is the Co2 level?' with a text input field and a '% v/v' unit selector.

Instant eForm: Select eForm on Mobile

Retrieve eForm on Mobile APP to fill in and submit.

The mobile app interface shows a list of tasks under 'ALEX12 (Off Duty)'. The 'Fire extinguisher checklist' is selected. The form displays the location 'FL 3' and the question 'What is the Co2 level? (% v/v)' with a 'Please Input' field. Below the question, there are radio buttons for 'Yes' and 'No'.

Associated eForm: Display Form when Checkpoint is read

eForm associated to checkpoint(s) will be displayed when the checkpoint(s) is read.

The mobile app interface shows a list of tasks under 'ALEX12 (Off Duty)'. The 'Fire extinguisher checklist' is selected. The form displays the location 'FL 1' and the question 'What is the Co2 level? (% v/v)' with a 'Please Input' field. Below the question, there are radio buttons for 'Yes' and 'No'.

Auto Email submitted eForms

Auto Email feature allows submitted eForm to be emailed to preset recipients.

The 'Push Forms' dialog box shows settings for automatic email submission. It includes a checkbox for 'Send Email automatically' and radio buttons for 'Fail Form only' and 'All Forms'. Below this, there are fields for 'Alex' and 'Supervisor' with their respective email addresses. There is also a checkbox for 'Automatically push to APP' and radio buttons for 'Fail Form only' and 'All Forms'. At the bottom, there is a table with columns 'S/N', 'Name', and 'Received in APP'.

Submitted eForms tabulate into Excel

Submitted eForms can be viewed in Web portal and exported to Excel for data tabulation and analysis.
